

— IN HIS NAME PRESENTS —

# GIMBI TOWN

— *Highlights from our crusade in December 24* —

## CRUSADE LOCATION

# CURFEWS & CIVIL UNREST

Gimbi lies in the far west of Ethiopia in the Oromia Region, nestled amongst densely forested mountains. It has been deeply affected by civil unrest in recent years. The sound company we usually contract for our events refused to go to Gimbi, so we needed to find a more willing supplier. We also had to abide by a strict 6pm curfew that was in place for mass gatherings due to safety concerns. Yet, despite all these challenges, tens of thousands gathered in the dusty local stadium for seven spectacular services over four days. They received the Gospel with overwhelming enthusiasm, calling upon the name of the Lord. Over 35,000 pieces of follow-up material were distributed.

# M I G H T Y M I R A C L E S

---

Prayer for the sick yielded countless terrific testimonies. Abebe, 23 years old, broke his back while serving in the army three years ago. Although he spent more than a year in hospital recovering, he still had minimal mobility and could not bend at all. Experiencing the power of God during prayer, he was astonished to find that he could bend fully and stretch easily, without any pain. Thrilled, he touched his toes on stage, delighting the crowd. "God has healed me and I have such peace!" he voiced.

Gemechiso is 35 years old. Two years ago, he was struck by a strange paralysis. His right hand and leg become lethargic, no longer functioning properly. Depressed about his situation, the future seemed increasingly hopeless. Now, all that has changed! Jesus touched his body and his previously uncooperative leg and hand are fully mobile. Overjoyed, Gemechiso danced about on stage. "I thank my God so much!" he exclaimed.

Mulu is 30 years old. Ten years ago, he was in an accident and broke his left leg. The limb never healed properly and he was left in constant pain and with a severe limp. He was passionate about farming but struggled to perform any physical duties. Today, Mulu is a new man. His leg is crippled no more but feels strong, stable, and pain-free. "I am so happy," he expressed.

# HEALING

---

Ayantü is a 15-year-old student. Two years ago, her stomach started to swell and she began experiencing severe abdominal problems. The pain was so severe that she could neither eat nor walk. She stopped attending school. Her health deteriorated. Her sister and father carried her to our crusade, having heard that people were being healed there by God. During the meeting, Jesus intervened in her situation. For the first time since the ordeal started, the pain left and Ayantü could walk unaided! She testified on stage together with her father and sister of the mighty work that the Lord had done, bending and stretching to show that she was now pain-free.

Tadelech, 45 years of age, was likewise carried to the crusade. She had been paralysed for the past five years. “My legs did not work,” she shared. “I could not move from my bed.” Already a child of God, she heard about the crusade from her church friends. Making plans to attend, she came specifically to receive prayer for healing. The Lord did not disappoint her. Now, feeling and strength have returned to her legs. “My life has changed! I can walk!” she exclaimed, thanking God.

# DELIVERANCE

---

Senait is 32 years old. Three years ago, she was involved in a road accident while traveling in a bajaj (a small, three-wheeled motor vehicle). Her one hand was badly injured and never healed. She could not open it fully and simple tasks were very challenging. After prayer, all that has changed! Her hand is functioning normally and she can extend the palm and fingers easily and without pain.

Sura is a 35-year-old father of two and a guard by occupation. Four years ago, a disc slipped in his back and he has been unable to walk or bend without severe pain. After prayer on Friday, he returned home and tested his body thoroughly. He can now declare with great enthusiasm and confidence that his back is completely healed! The pain is gone and the immobility is no more. He can move and twist without hesitancy.

# EMPOWERING BELIEVERS

---

During the weekend services, we taught on the Holy Spirit baptism following the salvation messages and in the final service, we prayed for those in attendance to be filled from on high. Believers were fired up for service, being equipped to share their faith and lay hands on the sick. The Spirit of God moved mightily across the crowd, saturating believers with Himself and leaving them anointed and appointed to be the mouth and hands of Jesus. It was glorious! Certificates of Appreciation were given to the pastors and volunteers, together with Amharic copies of my book on evangelism, "Spirit of Fire" that will further empower the believers of Gimbi for soul-winning.

# HEARTFELT THANKS

---

Thank you for making this crusade possible through your prayers and giving. Tens of thousands have heard the Gospel and Gimbi has experienced the wonder-working power of God. The pastors are ecstatic. These servants of the Lord are a true inspiration—deeply sincere, incredibly humble, and united in their vision to see Gimbi won for Jesus. In an area that has faced significant conflict, it is a privilege to support these leaders and help advance the extraordinary work that they have faithfully carried out for years. They are now eagerly following up and discipling every new convert whose details have been taken.

# WAVE ON WAVE

Our WOWZA (Wave On Wave South Africa) campaign was initiated at the beginning of this year to see wave upon wave of salvation, healing, and revival flooding across South Africa. By the end of November, thirty-eight crusades were held nationwide by multiple, zealous evangelists and their teams. These efforts have been amplified by pre-crusade outreaches in the schools and on the streets, together with soul-winning training in local churches. Thousands have been saved, delivered, and set ablaze across both urban centres and remote, rural locations. More crusades are planned throughout December. South Africa belongs to Jesus!

# THE DIEPSLOOT PROJECT

---

The township of Diepsloot—meaning “Deep Ditch” in Afrikaans—lies in the northernmost part of Johannesburg and is currently deemed to be the second most dangerous township in South Africa. Our project there involves conducting intensive soul-winning training in the churches, including both theoretical and practical components. We will ensure that their congregation members know how to win the lost and are fired up to be the hands and mouth of Jesus. We initiated the project in September, working hard at building relationships with pastors, putting together a local team, identifying challenges, as well as starting to conduct trainings and outreaches. We will get going in earnest in January. Already, believers are being empowered and hundreds are hearing the Gospel!

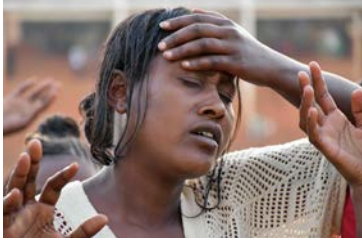

# ETHIOPIAN VILLAGE CRUSADES

---

While we have held two glorious mass crusades in Ethiopia this year—one in Yirga Chefe and the other in Gimbi—our team there has held eight village crusades additionally, journeying deep into the mountains where organising large-scale events is difficult—due to rough terrain—or dangerous—due to rebel activity. These meetings have been preceded by soul-winning training for local believers and outreaches in the marketplace. Thousands have heard the Gospel through these initiatives and churches have been equipped for ongoing, evangelistic action.

# Merry Christmas AND THANK YOU

*Your prayers and giving have impacted tens of thousands. Souls have been saved, bodies healed, believers ignited, and local evangelists supported. We are praying that our God overwhelms you and your family with His goodness this festive season.*
